

### **Racers Ranch to feature a professional race car track - 5/29/2006**

(Dallas-Fort Worth-Arlington: Housing)

(Wills Point area) - Investors who've purchased more than 1,500 acres east of Dallas won't be offering the standard amenities in their new project. Racers Ranch will offer a professional auto racecourse at the development near Wills Point. Builder Bill Georgas calls the project a country club for race car enthusiasts. Home sites, a clubhouse and equestrian facilities will round out the project just south of Interstate 20. The partners plan to break ground this summer on the 3.25-mile road-racing course that will be designed by Alan Wilson of Wilson Motorsports. The plan is to sell both five-acre home sites.
